Capability Statement

COMPANY PROFILE

Dynasty Electrical Group is an electrical and communications contracting company with over 40 years' experience in the industry Ryan. The company director leads a team of highly skilled electricians servicing hundreds of clients to date throughout Sydney, the Central Coast, Hunter & Wollongong regions. More recently due to demand, the team has expanded with a new Queensland office in Fortitude Valley, Brisbane; servicing from Byron bay NSW to the Sunshine Coast QLD.

At Dynasty Electrical Group we have developed a strong customer base, known for our reliability, quality workmanship, experience and customer service. The Dynasty team are always committed to their clients, aiming to deliver top quality work and client satisfaction, no matter how big or small the project.

COMPANY VISION

As we grow as a company, we believe it is paramount to maintain and uphold our companies' core values of safety, maintaining relationships, effective communication and customer focused service that have been the pillars for our success as a team.

CAPABILITIES & SERVICES

Electrical

We cover all aspects of commercial electrical services. All our work is completed to the highest quality standards and superior attention to detail.

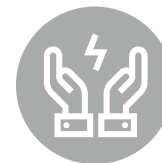

Communications

Our highly trained team of communication installers are accredited through ACRS and hold a current master cabling license with endorsements.

Automation

We offer the complete package of automation services.

Energy efficiency

Reduce your carbon footprint by upgrading your existing lighting to LED and reducing your electricity costs.

Maintenance

We offer reactive and preventative maintenance and 24/7 call out services to maintain all assets.

COMPANY CORE VALUES

Safety

Provide a safe workplace for our workers and clients and always striving to improve safety performance.

Customer focused

Dynasty Electrical Group strives to build and maintain a highly satisfied and trusting customer base through its premium quality of service, and extra attention to detail and communication.

People

Foster and maintain our relationships with long term suppliers, employees and clients.

Communication

We believe that communication in all areas of our business really embodies the previous three core values.

SAFETY & AFFILIATIONS

national
electrical and
communications
association

Our team recognise that in order to achieve an outstanding safety performance and best practice, we must have a proven systematic safety system, committed management and a pro-active workforce.

All employees and sub-contractors are fully engaged in our safety systems and are made aware of their responsibilities through company and project inductions, toolbox meetings, Safe Work Method Statements (SWMS) and / or Job Safety and Environment Assessments (JSEA).

Safety audits/inspections are conducted at DEG'S workplaces and independent third-party audits of our Safety Management Systems are conducted to ensure ongoing compliance and continuous improvement. Our safety system is NECA certified.

LICENCES

Electrical Contractors License #266734C

ACRS Master Cabler's License #A038746
